Pantone Paper Chip Savers now included with Solid Chips!

Overview

The Solid Color Set Bundle includes all 1,867 Pantone spot colors on coated and uncoated paper in two complementary formats: Formula Guide, a portable fan deck, and Solid Chips, a desktop set with perforated chips of each color. Use Formula Guide as a quick, personal reference when selecting or communicating colors and use Solid Chips to build mood boards, attach color to design files, and approve color on press.

Format

- Formula Guide (two portable, handheld fan decks) and Solid Chips (two three-ring binders)
- Solid Chips include all current Pantone spot colors as six perforated, removable paper chips
- All products printed on the most commonly used paper stock weights (100 lb coated, 80 lb for uncoated)
- Lighting Indicator page in guide demonstrates when lighting conditions are suitable for color evaluation
- Now includes Pantone Paper Chip Saver for storing loose chips and building color palettes for upcoming projects

Color

- 1,867 spot colors, including 112 new colors released in 2016
- Each color displayed with coordinating names and numbers; Formula Guides includes ink formulations
- Colors arranged in chromatic format, with 112 new colors displayed in the front
- Index in the back of the guides and front of books provides numeric location for each color

Application

Use Case: logos & branding, packaging, and color specification, sharing, and evaluation

- Ink formulations provide the most accurate method for achieving color on printed materials
- Solid Chips provide Pantone spot colors in the easiest formats to share, transport, or build palettes
