

New PANTONE® tints

COMING MAY 2005. After a year in research and development, the new PANTONE tints sports numerous enhancements. Re-engineered for greater utility, it is now presented as a four-volume fan guide set featuring tint effects that bleed off the page for press check ease. We've also increased the size of each tint, brightened and increased the durability of the paper stock and show each color printed as a thin and thick rule.

Additional Features

- Four guides in fan format
- Two-volume coated set of 559 color pages
- Two-volume uncoated set of 559 color pages
- Includes tints from 10% to 80% of the four CMYK process colors

Benefits

- Eliminates guesswork in selection of tints and solid color effects
- Fan guide format provides more color area
- Tints bleed for ease of checking colors
- Shows the effect of coated and uncoated stocks on each color
- Provides tints of all solid PANTONE Colors plus the four process colors

Name PANTONE® tints
SRP \$249.00 U.S.
Product # GP1205
ISBN 1-59065-082-4
