

Making a Mark on the Monument Industry

THANK YOU FOR YOUR INTEREST.

Thank you for your interest in Hyatt's equipment solutions for the monument industry. We offer quality stencil cutters from Allen Datagraph and Gerber Scientific Products since 1986.

Meet RON CLAMP, Hyatt's Monument Industry Specialist

Hyatt's Graphic Supply is a leading national Monument System provider with years of experience, expert training, on-site US installations and technical support. Ron Clamp, Hyatt's Monument System Specialist has over 25 years of experience in monumental and architectural sandblasting. Ron learned to sandblast and shape carving from masters of the trade. People like his father, Charlie Clamp, shape carving extraordinaire Jimmy Parham, Frank Bone, Boyd R. Parham, double process master carver Lepior Knome, Charlie Mann and Joe Fernandez to name a few, have helped develop the distinctive style and philosophy of sandblast/shape carving that Ron shares with his customers.

EXPERTISE!

GERBER GS750™plus-M

An industry favorite for over 20-years, the GS750M withstands the rigors of daily stencil cutting. Uses 30" perforated materials and can cut text and graphics up to 27.25" in height. The GS750 can use either a swivel or tangential-steered knife blade up to 27.25" in height! *Made in USA.*

After the Sale

After your purchase and training, Hyatt's is here for support and questions. Contacting us via email to protime@hyatts.com is preferred, as we usually can research your inquiry and respond faster than a phone call. Support is available Monday through Friday, 9:00am - 5:00pm EST.

Hyatt's can also provide a proposal for additional training should you add a new person to your staff or require more advanced technical support down the line. Our suppliers can also be reached for support.

Allen Datagraph (800) 258-6360
 Gerber Scientific Technical Support (800) 828-5406

GERBER GS15™plus CUTTING PLOTTERS

The GS15plus sprocket plotter uses 15" perforated media to cut text or graphics up to 13.25 inches in height. The GS15plus is the most accurate 15" plotter on the market when using a tangential knife while cutting sandblast materials. Includes a one-year warranty, accessory kit, blade holder, blade, pen and roll holder. *Made in USA.*

DEATH DATE PORTABLE SYSTEMS

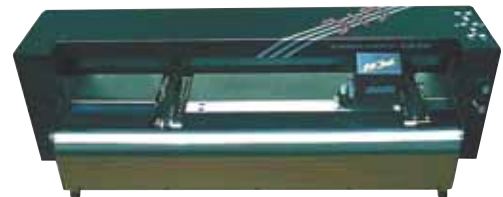

GERBER PORTABLE MODEL GS15™plus VINYL AND STENCIL CUTTER

The GS15plus with Hyatt's custom case - makes it portable for on-site final death dates and graphics. Unit includes rugged carrying case and a power inverter to power the cutter and your laptop. Have all the equipment available for one visit to the cemetery saving time and money, rather than traveling back and forth to the shop. *Made in USA.*

ALLEN DATAGRAPH PORTABLE MODEL 315 VINYL AND STENCIL CUTTER

The Allen 315GTS with options for portable use. Unit includes rugged carrying case and a power inverter to power the cutter and your laptop. Do the entire job on-site saving time and money, rather than traveling back and forth to the shop. *Made in USA.*

ALLEN DATAGRAPH 315 GTS 15-INCH CUTTER

Table-top, high-speed, rugged enough for stencil cutting of monument designs. Faultless, unattended operation with on-the-fly adjustable speed and force settings. Fully compatible with Gerber OMEGA, Signlab and more! Two-year manufacturer's warranty included. *Made in USA.*

Granite Impact Etching Systems

Granite-SR

Granite-SX

Granite-CP

**Non-Laser.
Easy to Use.
Reliable.**

What is Impact Etching?

Impact Etching is a revolutionary technology, designed for use in the Monument Industry. The image is created by the diamond-tipped needle hitting the stone. Machine's controller changes the strength and frequency of hits to achieve required characteristics of the image. Etching head is driven by precision German-manufactured 3-D linear drive. Gap sensor automatically maintains optimal distance between the needle and stone, allowing processing of uneven surfaces. In the end, you get the image that is as close as it gets to the original, and has the quality of etching performed by the artist, for a fraction of the cost.

Samples etched onto tile.

[Click for more brochure.](#)

[Click for more pricing.](#)

The Granite Impact Etcher is a non-laser, easy-to-use, reliable machine. The diamond needle physically hits the stone, creating images that are close to manual etching. Due to its ability to etch deep, it can achieve good visibility even on stones that have poorer contrast. Utilizing automatic gap-tracking technology, the Granite Impact Etcher Series eliminates focusing or a need to level the stone. Now available with a three year warranty.

- Automatic gap-tracking technology eliminates stone leveling
- Three models available; Granite-CP being portable
- Simple in design and operation • Easy to use
- Does not require attended operation
- Does not require cooling or other environmental limitations
- Connects easily to your laptop or desktop computer
- Time-tested and reliable
- Etches a wide range of images (including portraits and landscapes) onto granite, tile, glass and more.

Granite-CP Impact Etcher

- 15.7" x 23.6" Image Area
- Portable and can be positioned directly over the stone.

Granite-SR Impact Etcher

- 25.2" x 29.9" Image Area • Mid-range floor model

Granite-SX Impact Etcher

- 25.2" x 48.8" Image Area • Large floor model

LEARN GERBER THE EASY WAY!

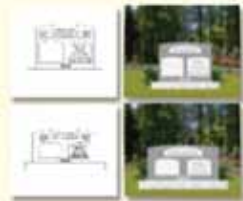

Ask about our **Gerber OMEGA Tutorial**.

This guide makes it easy to learn all the basics needed for composing and lettering.

Color Kit 3.0

Before After

ADD REAL GRANITE COLOR AND TEXTURE!

Color Kit 3.0 makes it easy to add realistic granite color and texture to your Gerber drawings. Five granite colors—each with three textures.

We're here because
your reputation is carving stone.

DESIGN ONLINE AND THEN CUT WITH GERBER!

Let your sales staff or customers design monuments in color on the web and email the image to you for processing. With Design Mart's Online **Catalog and Monument Designer** you and your customers can browse catalogs and design monuments that can be cut with Gerber's OMEGA software.

QUESTIONS ON DESIGNMART SOFTWARE?

d-mart@designmart.com

AFTER THE SALE TRAINING

Hyatt's offers training packages that are comprehensive, covering design, layout, stencil production, and more—all the way through product completion.

Hyatt's offers on-site installation and training. We also utilize GoToMeeting™ for online training. Online training provides the benefit of being able to do training when you want to and also the ability to break sessions up into multiple short sessions over several weeks rather than all at once in an on-site session.

A RESOURCE

Use Hyatt's and Ron Clamp as a resource. Ron is an experienced third generation sandblaster who offers shape carving training. If you are starting a new business, or expanding your current monument business, Ron can help jump start your effort. If you need recommendations on equipment not available from Hyatt's Ron can make those recommendations and provide the best companies to purchase it from.

Use Hyatt's and Ron as a resource. If you are interested in advanced training or just advice, contact Ron at:

rclamp@hyatts.com

ADD MONUMENTS ANY TIME.

You can add monument clip art to your collection at any time. Make it part of your purchase through Hyatt's, add it through Hyatt's later with a system upgrade, or call Design Mart directly any time you need to add a CD or individual monument to your collection.

Design Mart has more than 25 series to choose from. You can add CDs plus you can have matching brochures printed—personalized with your company name and logo.

Go online or call today for more info on how to enhance your Gerber system. Ask about our Starter Kit.
