## BLACK GOLD BRUSHES

With their distinctive natural wood and black enamel handles, Black Gold brushes stand out. Once you try them, you'll understand why!

## WATERCOLOR ROUNDS

Short handled in sizes 5x0 to 12, these brushes hold almost as much water as a pure sable brush costing up to 15 times as much! Pure synthetic fibers are bundled and flagged to mimic real Kolinsky hairs. Superior snap and spring keep their shape and wash out easily. Try them and you won't be disappointed! One of our best-selling brushes!

## OIL & ACRYLIC BRUSHES

Long handled for superior control that oil and acrylic painters demand. Available in flats, filberts and rounds in sable sizes from 1 thru 10. Softer than a hog bristle and with a finer diameter fibre, these brushes are perfect for blending, realism and leaving a minimum of brush marks. Yet they snap with a decent spring so painters can push paint around on the canvas.
