AMADOR

An outstanding, all-purpose, orange/brown, moist body. Has fine sand and is a difficult body to crack during firing. Durable and affordable. Good for professional or student. Reduces a warm orange/brown, lighter in oxidation. 25lb. bag: x41500 (min 1 ea) , 25lb. bag: x41510 (min 2 ea)

SOLDATE 60

Gray in the raw form with a high sand content which makes it an ideal choice for large thrown pieces and sculptural forms. Fires to a yellow-brown color under medium reduction. It has a medium coarse texture due to 60 mesh sand additive. 25lb. bag: x41518 (min 2 ea)

B-MIX

A premier, cream-white, throwing clay that is easy to throw and form. Excellent glaze results. Fires gray/white in reduction and lighter in oxidation. Smooth porcelain texture. 25lb. bag: x41512 (min 2ea)

HALF & HALF

This clay combines white stoneware and porcelain in equal proportions. The result is a very throwable white body that is tinted a light gray/white in reduction and slightly off-white in oxidation. Made with fine sand. 25lb. bag: x41501 (min 1 ea)

DAVE'S PORCELAIN

An outstanding throwing body. Ideal for thin walls and larger pieces, and excellent for slab use and when a vitreous clay is desirable. Light gray in reduction, off-white in oxidation. 25lb. bag: x41514 (min 2 ea)

DANISH WHITE

This white stoneware body is a good choice for small to medium work. It has exceptional strength and plasticity. Danish White fires offwhite in oxidation and grayish in reduction. It has a smooth texture. 25lb. bag: x41516 (min 2 ea)

BUFF WITH SAND

The addition of sand to 52 Buff increases its strength and workability, making it a better choice for medium sized pieces. The texture is medium coarse. Cone 5 firing results in a buff color in oxidation and yellow/brown in reduction. 25lb. bag: x41520 (min 2 ea)
