

Finally, a space-saving solution that allows you to use any punched or unpunched stencil.

The new AllCut Pro by Allen Cutters is a high performance digital template cutting system designed with your business in mind. We valued your input, took note of your requirements, and created this stencil-cutting solution to simplify your work and increase your profits.

- **FLEXIBILITY AND EASE OF USE.**

AllCut Pro cuts any stencil, punched or unpunched, to streamline your operation, saving time and money by reducing wasted stencil and labor. The automated, high-capacity material handling system gives the capability to cut your jobs continuously, even overnight.

- **ACCURACY AND QUALITY CUTS.**

The AllCut Pro uses a new reinforced cutting head and 5-point pinch wheel configuration with 10 contact points to ensure the most accurate tracking available.

- **EASY SETUP AND CONNECTION.**

The AllCut Pro is Wi-Fi enabled giving you maximum flexibility on machine placement. Of course, you can still connect by Ethernet or USB cables if you prefer.

- **DURABILITY.**

The AllCut Pro has stronger motors, a higher capacity power supply, a reinforced cutting head, a sealed electronic enclosure and switches to protect components, a high-capacity material handling system, and a more rugged analog joystick.
