Label Printing & Cutting Machine

Bepop

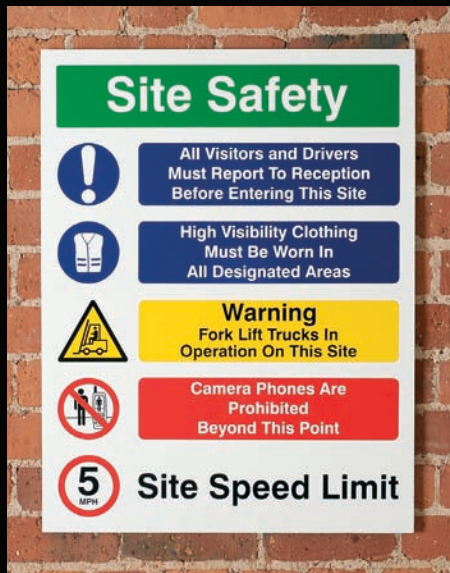

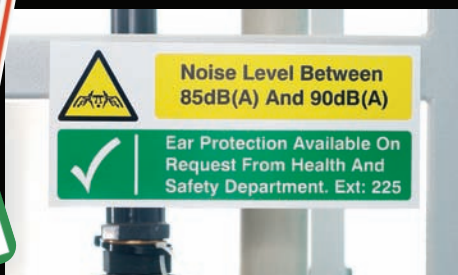

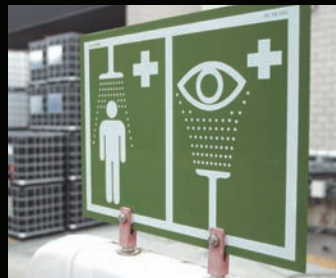

CPM-100G3U

4 inch wide Label Printing & Cutting Machine

Thermal Printing & Vinyl - Cutting

Create your own signs and labels wherever and whenever you need them.

Save Time, Save Money, Improve Processes

Sourcing appropriate labels and signs can often be time consuming and costly, especially when only small quantities, specifically worded, or exact sized outputs are required. This is where the CPM-100G3U allows you to realize huge cost savings and operational improvements, by producing exactly what you want, when you want it... 24 hours a day !

PRODUCT SPECIFICATIONS	
Model	CPM-100G3U
Printing method	Thermal transfer
Print resolution	203dpi
Printing speed	1.0"/sec. at standard
Cutting speed	4.7"/sec. at maximum
Maximum output range	4"×78.7"
Interface	USB: USB2.0 Full Speed, Allowable cable length 78.7"
Working environment	Temperature: 50-95°F, (10-35°C) Humidity: 35-80% (No dew condensation allowed)
Power source	AC 100-240V 50/60Hz 1A
Power consumption	150W at maximum, 20W at standby
Outer dimensions	12.8"(W) × 12.0"(D) × 12.4"(H)
Weight	19.8lbs (9kg)

Comes with dedicated "Bepop PC-EX" application software

CONTENTS
CPM-100G3U, AC cable, Blade, Tweezers, Squeegee, Tool Holder, Tool Holder replacing spanner, Application software CD, Instruction manual

PC REQUIREMENTS
For Windows 10 / 8 / 7
Windows® is a registered trademark of Microsoft Corporation® (US) in U.S.A or in other countries.

Create your own signs & labels wherever & whenever you need them

Who needs a CPM-100G3U ?

There are so many applications, both traditional and new, for the unique capabilities of the CPM-100G3U. Because of the highly durable and robust output, industrial and manufacturing sectors will find endless uses throughout their organizations. These include labels and signs for

- health and safety, ● engineering, ● electrical, ● plant ID, ● asset, ● tracking,
- product ID, ● pipe marking, ● administration, ● chemical ID, ● facilities management,
- control panels... the list goes on.

How does the CPM-100G3U work ?

The CPM-100G3U combines thermal print and vinyl-cutting technology, together with our tried and tested software, to produce multiple spot-color outputs. So for example, you can design and print a multi-colored label that can then be contour-cut to fit into a recess.

Because the system handles individual shapes and sizes, there's no need to buy customised blank labels. For customers who need to label high value, low quantity equipment in a professional manner, the CPM-100G3U is ideal.
