- HP Series 280i is optimized for printing on the Gerber EDGE® Series thermal transfer printers
- Excellent conformance that allows application to riveted or corrugated surfaces
- Up-sell to existing customers and increase your profits
- Attention-getting day and night graphics
- Multitude of colors

**Create Short-Run, Custom-Printed,  
Custom-Cut graphics with the  
Gerber EDGE™ Production System**

“ I up-sell Gerber Reflective to many of my industrial customers, and that has helped me stay competitive and make more \$\$\$.” -Fred Luck of Frederick Signs

## GERBER **EDGE** + Gerber Reflective= \$\$\$

### Gerber Series 280 Reflective

7-mil; Excellent conformance to flat or moderately curved substrates; Seven-year exterior life on all colors; five year exterior life on black; Available in ten colors.

### Gerber Series 280i Reflective

7-mil; Similar properties to Series 280 and is optimized for printing on Gerber EDGE Series thermal transfer printers; Available in white.

### Gerber InstaChange Reflective

7 mil; Optimized for printing on GERBER EDGE Series thermal transfer printers; Removable for up to 18 months after application. The film's unique adhesive allows the graphic to be removed from most surfaces without leaving an adhesive residue and without the aid of chemicals, accessories, or heat.
